PowerPad wireless conductive charging station
perfectly integrated for iPhone and your digital lifestyle

International CES
Innovations Design and
Engineering Awards

The Milano PowerPad delivers a perfect wire-free charging solution for your portable devices.

Easy to install, carry and enable, it allows you to go wire-free straight out of the box. Available in two convenient packs, one including a custom designed iPhone sleeve, these contain everything you need to get started right away.

The PowerPad is capable of simultaneously charging up to 5 devices, including mobile phones, MP3 players, Bluetooth headsets, eBooks, sat-nav systems, iPhones and BlackBerrys and many more.

Through the patented PowerPad, Sleeve and PowerLink Technology, this amazing device from Milano allows your digital life to finally go unplugged!

KEY FEATURES AND BENEFITS

Milano PowerPad wireless conductive charging station

- **WORLD'S FIRST.** The Milano PowerPad is the first commercially available wireless conductive charging solution.
- **ULTRA-SLIM AND COMPACT.** The PowerPad is a lightweight, discreet and easily portable system. Smaller than most mouse-mats, it can be set up at home or the office with minimum fuss, yet providing almost limitless practicality.
- **CHARGE UP TO 5 DEVICES SIMULTANEOUSLY.** Despite its diminutive dimensions, the Milano PowerPad packs a mighty punch and can charge up to 5 devices at once, each at full efficiency * and because it only uses power on demand, it is extremely eco-friendly.
- **SAFE AND EFFICIENT POWER TRANSFER.** The PowerPad uses safe conductive technology, there is no radiation or risk of electric shock whether the device is in use or on standby.
- **8 UNIVERSAL ADAPTERS INCLUDED.** The Milano PowerPad is shipped with a set of 8 universal PowerLinks and a charging key enabling the charging of most portable devices; mobile phones, sat-navs, eBooks, smart-phones, digital cameras and many more.
- **APPLE APPROVED .** The Milano PowerPad pack for iPhone pack includes, in addition to the 8 PowerLinks, an Apple approved sleeve for the iPhone for added convenience and value.

PRODUCT SPECIFICATION

Milano PowerPad wireless conductive charging system

Technology Type

Conductive power transfer
WildCharge™ enabled

Capacity

Up to 15 Watts of power
*(typically around 5 mobile phones)

Interoperability

A wide variety of devices may be charged with the same PowerPad

Output Voltage

15V

Operating Temperature / Humidity

5°C - 45°C / 20% - 80%

Storage Temperature / Humidity

-40°C - 60°C / 5% - 95%

ESD Immunity

CE - ESD and RF Emissions only

Regularity Approvals

FCC Class B, RoHS, WEEE, C-Tick

Colour

Graphite / Silver

PowerPad Dimensions / Weight

L 200mm x W 157mm x H(max) 16mm / 160g

Packaging Dimensions / Weight

H 205mm x W 170mm x D 60mm / 250g

PET Euro-hook / hang tab included

Adapters Included for

Nokia, SonyEricsson, LG, Samsung, Palm, Motorola, mini-USB, micro-USB

iPhone Charging Sleeve

Silicon charging sleeve for iPhone with integrated PowerPad charging points and Apple approved connector
